

Welcome

Foundations of Economics · First session

Miguel Vázquez-Carrero

Universidad Carlos III de Madrid · International School

Three ground rules

1. No screens

No phones. No tablets. Take your notes on paper.

This one is not a suggestion — it is enforced.

2. Be on time

The door closes five minutes after we start. After that you cannot come in.

3. Ask

Questions are the point. You are here to learn, not to already know.

The book

Acemoglu, Laibson & List
Economics, 3rd Global Edition
Pearson

Acemoglu, Laibson y List
Economía
Antoni Bosch

Either edition works: the chapters and sections match.

How you are graded

Component	Weight	Coverage
Problem sets	20%	Set through the term
Midterm exam	20%	Date and coverage announced in class
Final exam	60%	The whole course

All three come from the same place: the **end-of-chapter exercises**. If you can do the problem sets, you are prepared.

The final exam is in December. The exact date is set by the school — check your own group on Aula Global.
